

### 850/1075/1200 Engine Factory Fresh/Rebuild

Account Name: \_\_\_\_\_ Account Number: \_\_\_\_\_

Address: \_\_\_\_\_ City: \_\_\_\_\_

State and Zip: \_\_\_\_\_ Phone Number: \_\_\_\_\_

Fax Number: \_\_\_\_\_

Customer Name: \_\_\_\_\_

Engine Serial Number(s): \_\_\_\_\_

**Is the engine in "good running condition"?** Yes \_\_\_\_\_ No \_\_\_\_\_

Please note - "Good running condition" means that the engine runs properly on its own without any abnormal running conditions and the engine has not been submerged or improperly maintained. Engines not meeting the "Good Running Condition" will be subjected to an estimating process.

**Will any parts be missing from the engine?** Yes \_\_\_\_\_ No \_\_\_\_\_

(Please identify what will be missing below – NOTE: any part(s) missing required for normal engine operation will be replaced at the customer's expense.)

**Does the customer want the used parts back?** Yes \_\_\_\_\_ No \_\_\_\_\_

(shipping weight is customer's expense – weight of standard refresh returned parts is 70 lbs. In the event additional parts need replacing their weights are as follows: Cyl. Block = 277 lbs. – Crankshaft = 77 lbs. – Con Rods = 1.8 lbs. (ea) – Heads = 45 lbs. (ea) – Rotor = 18 lbs.)

**Does the customer want to take advantage of the optional updates?** Yes \_\_\_\_\_ No \_\_\_\_\_

**NOTE:** Color Update & Refresh Optional Update Kit sheets must be filled out & returned to Mercury Racing with this signed document.

#### Refer to Refresh Helpful Hints document to properly prep engine for return

Listed below are the activities that Mercury Racing **will not** be responsible for. They must be performed by the dealer or boat builder.

- Headers and exhaust pipes must be pressure tested for leaks.
- Cooling system checked including water pick-ups and sea strainers to ensure normal operation.
- Fuel system checked for leaks and replacement of water separating fuel filter(s).
- Drive(s)/transom plate(s) to be inspected per operation manual's instructions.
- Engines are to be re-installed with all safety equipment in place.
