Bravo I XS Outboard Propeller OptiMax Performance Booster

FOND DU LAC, Wis., Feb. 19, 2010 – Mercury Racing released the all-new Pro Finished Bravo I XS outboard propeller today in conjunction with the opening of the 2010 BASS Master Classic fishing tournament in Birmingham, Ala.

The stainless steel propeller, designed for use on Mercury OptiMax XS and V-6 Pro XS Outboard engines, features four robust blades and an exhaust tube with 1-inch vent holes for enhanced acceleration and mid-range punch. The shortened exhaust tube provides greater top-end speed, while minimizing stern lift for improved boat handling and performance.

The Pro Finished Bravo I XS outboard propeller, available in right-hand rotation and 24-, 26- and 28-inch pitch sizes, is designed for use on bass, flats, cat flats and performance center console bay boats.

Contact Mercury Racing Performance Propeller Manager Scott Reichow at 920-924-2037 for pricing and availability.

About Mercury Racing

Based in Fond du Lac, Wis., Mercury Racing, a division of Mercury Marine, is a leading provider of high-performance marine propulsion systems for discriminating boaters worldwide, offering an exciting and fulfilling power boating experience on the water.
