525 EFI Race Sterndrive Engine Refresh Maintenance Program

FOND DU LAC, Wis., Oct. 26, 2009 – Mercury Racing continues to offer factory engine refreshing and sealing certification for the popular 525 EFI race sterndrive engine package. The service is available to all offshore race organizations and competitors racing the 525 EFI sterndrive engine.

The factory-direct service, based at Mercury Racing's world headquarters in Fond du Lac, Wis., features a complete inspection and refresh of the engine – from the bare cylinder block through a final power run on a dynamometer.

Refreshes are done strictly to Mercury Racing factory standards and specifications. All replacement parts are Mercury Racing specified manufacturers' original parts. The standard 525 EFI refresh includes a complete disassembly and inspection of the engine. Replaced components include cylinder heads and gaskets, intake and exhaust valves, valve springs, retainers, valve seals, rocker arms, lifters, pistons and rings, rod bearings, main bearings, cam bearings, rod bolts, camshaft, timing chain and sprocket set, oil and fuel filters, spark plugs, impeller kit, oil pump, fuel pump, miscellaneous gaskets, seals and hardware.

525 EFI Race Standard Refresh Service Parts Kit Contents:

- (1) Set valve springs
- (1) Set retainers
- (1) Set valve seals
- (1) Set lifters
- (1) Set cylinder heads and gaskets
- (1) Oil and fuel filters
- (1) Set spark plugs
- (1) Sea pump – impeller kit
- (1) Set exhaust valves
- (1) Set intake valves
- (1) Set rocker arms
- (1) Set pistons and rings
- (1) Set rod bearings

(more)

525 EFI Race Service Parts Kit (Cont.)

- (1) Set main bearings
- (1) Set cam bearings
- (1) Set rod bolts
- (1) Camshaft
- (1) Timing chain and sprocket set
- (1) Serpentine belt
- (1) Oil pump and shaft
- (1) Fuel pump
- Miscellaneous gaskets, seals, hardware

Racer price for the refresh of one engine is \$9,949.80. The fee covers labor and replacement of parts included in the standard refresh kit. Owners will be notified for approval prior to replacement of additional major components. All other parts required in addition to the cost of the standard refresh will be invoiced along with any additional labor.

A minimum flat fee of \$1,200 per engine will be charged for engine disassembly and inspection if the owner chooses not to go forward with the engine refresh.

Owners with Mercury Racing race accounts can send their engines in direct or through a qualified Mercury Racing Total Engine Application Management (T.E.A.M.) accredited OEM boat builder or dealer.

Owners are required to contact Mercury Racing at 920-921-5330 for approval prior to sending their engines.

About Mercury Racing

Based in Fond du Lac, Wis., Mercury Racing, a division of Mercury Marine, is a leading provider of high-performance marine propulsion systems for discriminating boaters worldwide, offering an exciting and fulfilling power boating experience on the water. Using leading-edge technology, Mercury Racing produces high-performance outboards, sterndrives, propellers, parts and accessories. Mercury Racing-powered boats win more races worldwide and set more records as compared to boats powered by other marine engine manufacturers. Mercury Marine is a division of Brunswick Corp. (NYSE: BC), the world's largest manufacturer of recreational products, including pleasure boats, marine engines, fitness equipment, and bowling and billiards.
