## PRO MAX<sup>®</sup>

The Mercury Racing<sup>®</sup> Pro Max<sup>®</sup> propeller is designed to lift light- to medium-weight hulls on plane quickly and to deliver outstanding top-end speed. The Pro Max features Mercury Racing<sup>®</sup> Pro E.T.<sup>®</sup> drag race blades combined with a custom through-hub exhaust tube. This unique combination provides a 33% faster hole shot than the Pro E.T. and top-end speeds up to three mph faster.

The Mercury<sup>®</sup> patented Performance Vent System<sup>®</sup> (PVS). PVS<sup>®</sup> enables the operator to fine tune exhaust venting for ideal planing performance and enhanced acceleration. New half-inch pitch models enable operators to precision-tune their hulls for maximum all-around performance. The Pro Max propeller is an ideal match for OptiMax<sup>®</sup> 300XS, OptiMax ProXS<sup>®</sup>, Verado<sup>®</sup> 400R and Verado Pro FourStroke outboard applications on hulls with natural bow lift including bass, flats, cat flats, high performance sport boats and race boats.

| PITCH             | ROTATION | PART #    |
|-------------------|----------|-----------|
