

ENERTIA ECO XP

OUTBOARD PROPELLER

The Mercury Racing® Enertia® ECO XP propeller provides “Extreme Precision” when dialing in engine speed for maximized power output and efficiency. Based on the award winning Mercury® Enertia ECO propeller, the ECO XP is particularly helpful in spooling up Mercury Verado® 300 and 350 and Mercury Racing Verado 400R outboards to their full potential on recreational bay boats and offshore center consoles.

Mercury Racing propeller artisans customize blade cups to offer 16.5", 17.5", 18.5", 19.5", 20.5", 21.5" and 22.5" pitch sizes to compliment the Mercury Enertia ECO line, ranging from 17" to 23" pitch in two inch increments.

The 3-blade stainless steel prop features the Mercury patented Performance Vent System® (PVS). PVS® enables the user to fine tune the amount of venting needed for quick planing. The standard length exhaust tube, in addition to reducing the time-to-plane, also provides stern lift for maximum hull performance and an improved ride in a variety of conditions.

PITCH/DIA	RIGHT-HAND	LEFT-HAND
16.5"/16.00"	8M0110304	8M0110303
17.5"/16.00"	8M0119052	8M0119053
18.5"/16.00"	8M0108350	8M0108351
19.5"/16.00"	8M0119056	8M0119055
20.5"/16.00"	8M0108352	8M0108353
21.5"/16.00"	8M0119058	8M0119057
22.5"/16.00"	8M0108354	8M0108357
